

APPENDIX P

CRC DEIS Comments

The CRC project included a formal 60-day comment period for members of the public and other organizations to review and comment on the Draft Environmental Impact Statement (DEIS). The 60-day comment period began with publication of the DEIS on May 2, 2008, and concluded on midnight of July 1, 2008, including all mailed comments post-marked by July 1 at midnight. These comments, and responses to them, are provided on a disc attached to the back cover of Volume 1 of this Final Environmental Impact Statement. The disc also includes the comments federal agencies have submitted on the DEIS.

To view the comments and responses, please open the folder entitled “Responses to Comments made on the CRC Draft EIS” on the attached disc. This folder includes an index that organizes the comments first by commenter type (federal agency, state agency, local agency, Tribe, CRC advisory group, neighborhood association, business association, non-governmental organization, business, and public) and then by the alphabet. After you find the comment you are interested in, simply click on the name of the organization or individual who submitted the comment.
